Additional Declarations: Yes there is potential Competing Interest. None of the authors had competing interests except for Martin C Tammemägi. Martin C Tammemägi developed the PLCOm2012noRace lung cancer risk prediction model, which is used in the Pilot. The model is open access and is available free of charge to non-commercial users. For commercial users, licensing has been assigned to Brock University. To date, Martin C Tammemägi has not received any money for use of the PLCOm2012 model, nor does he anticipate any payments in the future.

Version of Record: A version of this preprint was published at Nature Medicine on April 19th, 2024. See the published version at <https://doi.org/10.1038/s41591-024-02904-z>.
